Installation and Immersive Environment at CALPA

The Story of Bodie is planning to present the complete project at the 2007 CALPA Annual Conference on October 25th-28th. The event is to be held in Santa Barbara, California.

ISU/NSA

The Story of Bodie was presented at the 2007 Joint 16th International Stereoscopic Union Congress and 33rd National Stereoscopic Association Convention in Boise, Idaho in July.

The project was showcased in the Art Gallery as an immersive environment. However, due to equipment limitations, the installation could not be presented.

We'd like to thank TDVision for providing technical support for us!
